

**BASEBOARD BA** metal and PVC profiles can be easily installed with adhesive, screws or nails: a simple, elegant and durable solution.

# skirting BA

The slightly rounded edges seal the baseboard onto the floor covering. The protruding lip on the bottom of the profile conceals the perimeter movement joint.

### SKIRTING BA-AS\* Silver Anodized Aluminum

This extruded profile has a silver coating over its visible surface which offers adequate resistance to corrosion and good resistance to oxidation and mechanical impact. Available in two versions: without adhesive (ASN) and self-adhesive (ASA) for fast and easy installation. Endcap, internal, external joint pieces in silver synthetic resin are available for BA600 and BA800. (RAL colors are available upon request for a minimum quantity.)

### SKIRTING BA 600 A\* Powder-Coated Aluminum in Corten Brown, Sandblasted Gray, Matte White

This aluminum profile is color-coated with a polyester powder coat.

### SKIRTING BA 600 A \*Textured Extruded Aluminum

Innovative and elegant, wood-colored finishes are available in bleached oak (ATRS), wenge (ATWE), teak (ATTK), and oak (ATRO). Available without adhesive (A\*N).
